

Traveling On

SS-05-5.2.3 Students will compare changes over time in communication, technology, transportation, and education.

The museum houses an airplane, a car, a buggy, and a wagon that were key transportation methods of the past. How has transportation changed to become what it is today?

- **Write a paragraph comparing transportation methods of the past with present day transportation.**
- **Tell why these changes may have been possible.**
- **What changes do you see for transportation of the future?**
