## Learning to Make Do

**SS-05-3.1.1 Students will describe scarcity and explain how scarcity required people in different periods in the U.S. to make economic choices and incur opportunity costs.**

**During different periods during the development of our country, some goods and services often become scarce for many different reasons. One of these times is during wartimes. While touring the museum, you heard about what items were scarce during World War II.**

- **Write about one item that was scarce and how people dealt with it in their everyday lives.**
- **Write about an item that was scarce that people dealt with collectively as a society.**
- **Tell how it would feel to have to do without, conserve, or use a substitution for something that was scarce during World War II.**
- **Imagine what item may become scarce today or in your lifetime.**
