

Early Social Institutions

SS-04.2.2.1 Students will describe social institutions in Kentucky and how they respond to the needs of the people.

On the second floor of the museum, you see replicas of a post office, doctor's office, dentist office, telephone switchboard, dry goods shop, hat store, undertaker's business, a one room school, and a church display. These displays represent people of the late 1800's and the 1900's and their attempts to establish social institutions to meet their many needs as a new society. Label each picture or symbol of social institutions and tell if they meet the needs for:

- Education
- Religion
- Economy
- Family Needs
